

Our World & Beyond!

Science After School Club details

School: Kidmore End Primary School

Day & Time: Wednesday 3.15-4.15pm

Term Dates: 5-Nov 12-Nov 19-Nov
26-Nov 3-Dec 10-Dec

6 Week programme

Cost: £58.14

Our after school clubs are both educationally rewarding and enormous fun for children. We present fundamental scientific principles by stealth, with each session offering a memorable mixture of inspiring demonstrations & stimulating hands-on activities — so much fun, that children don't even realise they're learning!

Rocky Mountains!

Discover what makes our planet so unique; from tectonic plates to volcanic eruptions. Replicate a disastrous earthquake, find out how rocks are formed and reveal hidden crystals within geodes. Then complete a crystal growing experiment at home!

Monstrous Insects!

What comes first – the egg or the butterfly? Entomology at its best! Find out why insects are different from bugs, encounter ugly mini-beasts and design your own extra-terrestrial insect life forms!

To breathe or not to breathe!

It's dangerous out there! Air may seem everyday to us, but beyond our planet air is far from ordinary. Discover how other planets have developed different atmospheres and find out if we could survive on Mars!

Gone with the Wind!

Become a meteorologist! Explore extreme weather conditions, create clouds in a bottle, whirling tornados and investigate acid rain. Get blown away with exciting demonstrations and make your very own weatherproof windmill to take home!

Signs of Life!

Investigate planet surfaces to look for signs of life. Find out why water plays a vital part in life on Earth and how fossils can tell us about what life was like millions of years ago. Make your own plaster fossil to take home!

Light Up The Way!

We spend our whole lives ruled by light and dark. We will look closer at why we have days and nights and how the moon looks like it changes shape! Use the science of light to illuminate your very own magic torch picture!

Register Now!

To register and pay for your child(ren) to attend Kidmore End Primary School Science Club please go to this link:

<https://bit.ly/KidmoreSciT225> (case sensitive)

CLUBS WILL BE RUNNING UNLESS YOU ARE NOTIFIED OTHERWISE.

All registrations are handled by Active Network. Terms and Conditions apply.
